

LEVEL UP YOUR CONFERENCE

A powerful and immersive online conference tool like no other.

CONFERENCE SCHEDULING

Break down the barriers of Social Distancing, Travel Requirements, and Health Concerns, and re-ignite customer and client engagement through virtual experiences with minimal investment.

VIRTUAL B2B

Meet with partners around the globe in a private meeting room, exchange business cards and collateral; and collaborate with partners regardless of geographical location.

3D PRODUCT DEMONSTRATION

Invite your customers to join you in your own Fully Customizable Virtual Space! Engage with clients in a virtual setting of your choice, fully interact with your products in a way only possible through virtualization.

ONLINE VIRTUAL CONFERENCE

Whether you're hosting a live training workshop, bringing your company's remote team together, or launching a full-scale digital conference, it's easy to create an engaging and immersive event for up to hundreds of thousands of people. Chat with team members, start secure video calls, share collaterals, join speaker sessions, and experience company's virtual booth and products are few of many powerful features of XR Conferencing.

BENEFITS

- Host private, collaborative meetings where you can engage your prospects while interacting with your physical products in a virtual environment
- Engage your event participants directly in a collaborative meeting instead of a passive presentation
- Increase your ROI by creating standardized, engaging client presentations without travel requirements
- Utilize on-demand features to engage a client remotely and demonstrate your product capabilities

WHAT MAKES US DIFFERENT

- Centralized Platform:** Engage and present to connections conveniently with push-to-talk VoIP, secure chat, and meeting invitations in our centralized client engagement hub.
- Customizable:** Quickly and easily customize your own 3D exhibition, personalize your avatar, and upload your own custom content—3D models, business cards, videos, presentation slides, and more.
- Platform-agnostic:** Attendees can meet, interact, and collaborate together in the virtual meeting space using any device—VR, PC, Android, iOS.
- Data security:** All data and communications are secured by end-to-end encryption, protecting your conversations and all your sensitive data. encryption using advanced Olm and Megolm cryptographic ratchets.
